And now, TROLL presents...

CANADIAN LOOSE METAL SERVICE

The service that has previously only been available to U.S. customers is open to all of our friends in Canada! Now, you may be asking yourself...

What is a Loose Metal Service?

The Loose Metal Service allows you to buy any individual metal figures or bits for converting or customizing your army in any way you please.

What is available through the service?

You can order virtually any bit from our entire current range of products and hundreds of bits from models and kits that have been discontinued.

Is there a list of what's available?

The best source to use for buying bits is the **1999 Citadel Annual**, a 528 page mammoth catalog. It contains pictures of everything currently available in the Citadel Miniatures range shown in bits. You can keep up with many of the bits for new releases through White Dwarf and Troll each and every month.

How much do bitz cost?

We are in the process of making a price guide for all of the good folks up in Canada to use for all of their bit buying needs. But in the meantime you can use a U.S. price list for your orders by multiplying the U.S. prices by 1.5. (for example, a $2.00 U.S. bit will cost $3.00 Canadian)

How do I place an order for bitz?

It's simple. Just call your Mail Order Trolls in Canada, toll free, at **1-888-GW-TROLL** with the product information and quantities, and they'll be more than happy to take care of the problem.

How will my order be shipped to me?

The bits portion of your order will be put together at the U.S. warehouse and then shipped to the Canadian warehouse daily where it will be sent on its way to you with the rest of your order. That way you save on shipping charges.

Do I have to buy plastic bases, shields, weapons, and other sprues separately?

NO! We will always provide the necessary plastics that would regularly come with the models you purchase, at no extra charge.

You can use the Loose Metal Service for all sorts of projects:

- Unify your regiments with the same metal shields.
- Mix-and-match Terminator arms.
- Upgrade your vehicles with bits like the new ablative armor.
- Pick up spare body parts for grisly terrain projects.
- And you can create just about any conversion you can imagine!

CONVERSION CORNER

ORK WARBOSS

The new Ork Warboss provides a great amount of opportunity for putting your own personality into your Ork Warband. Here are just a couple examples, including one off-the-wall case of Orky time travel.

Dave Husser - GW Philadelphia

Dave has done quite a job simply by adding some of the bits from the Goblin Chariot on the banner pole. Add the sniping Grot and you've got a figure worthy of leading a mighty WAAAGH! straight across the galaxy.

Brad Deicas - GW HQ Staff

Brad took his Ork Warboss and put it smack in the middle of the Old World. Brad replaced the chain-axe with the axe from a Minotaur Lord for a great effect. What Orc and Goblin army wouldn't rally behind this imposing Greenskin?

DON'T FORGET!

Send us your conversion ideas and you could walk away with a bunch of loot. Send your pictures and information to:

Games Workshop
Conversion Corner

For all of the rules, check out the Conversion Corner in Troll #18. The conversion(s) picked to be featured in Troll as "Conversion of the Month" will receive a **$30.00** voucher good towards the purchase of any Games Workshop stuff through GW Mail Order!

GAMES WORKSHOP

CUSTOM FIGURE CASES

Have you ever packed up the army you'd spent countless hours preparing for battle, then gotten to the table, and opened up your case only to find mass destruction? Shields were popped off, riders were thrown from their mounts, and all sorts of other problems caused by cases containing foam that just wasn't designed to carry your delicate miniatures. Now your problem is solved! Our Citadel Miniature cases were designed with figures in mind. No more precariously arranging miniatures on uneven egg carton surfaces that end up squashing your figures when you close the lid. These cases are just what you need for safe transport.

As you can see, these cases have custom foam inserts perfect for carrying miniatures of all shapes and sizes. Single troops fit snugly and safely in the compartments, and with a little modification using a modeling knife you can expand the sections for larger models like cavalry and war machines. The open compartments cause no undue pressure on the delicate bits that may have been damaged or snapped off in your other cases. And now each case is emblazoned with an impressive looking Imperial Eagle.

The new figure cases (shown here at approximately 25% actual size) hold 108 individual figures and are adorned with a menacing Imperial Eagle! (Pictures may not exactly match finished product.)

Each case holds up to 108 individual figures so there's never a loss for space. Entire armies can be transported safely with no crowding. We can't guarantee their safety on the field, but you can at least make sure they arrive intact.

HOW DO I GET TROLL?

Until last month, if you lived in the Great White North, chances are you'd never gotten your hands on a copy of Troll. Troll #18, and this month's #19, went out to everyone on our Canadian customer mailing list so they could get a taste of what awaits on the pages of Troll each month. But unfortunately, we can't keep doing this every month. "So," you may be wondering, "how do I keep getting Troll after this month?" Well, your friends here at Games Workshop Mail Order are going to tell you!

The first, most popular, and most reliable method for getting Troll every month is to **subscribe to White Dwarf**. An issue of Troll is packed in with every issue of White Dwarf that's sent out to subscribers.

The second way to get Troll is to **place an order with Games Workshop Mail Order**. A copy is sent out with each shipment that leaves our warehouse. However, they're only packed in while we have copies left, so we may run out.

The third way is to simply **give da Trolls a call and ask for a copy**. We'll be more than happy to send one to ya, but, like the second method, we can only send 'em while we have 'em

There you have it, three ways to get Troll every month. Pick a method and give us a call!
